# Cara Huynh

(206) 818 8906 | ckayhuynh@gmail.com | carahuynh.com | Seattle, WA

## EDUCATION

**University of Washington** | Seattle, WA **Sep 2022 - Jun 2026**

- B.S. in Human Centered Design & Engineering *GPA: 3.82/4.00*

*(Intersection of Computer Science, Product Strategy, and HCI)*

**Northeastern University** | Boston, MA **Sep 2026 - Expected Jun 2028**

- M.S. in Engineering Management

## PROFESSIONAL EXPERIENCE

**Acting Globally** | *Product Manager* | Seattle, WA **Jan 2026 - Jun 2026**

- **Led** cross-functional delivery for a 4-person team; translated baseline usability testing into product specs to eliminate external drop-off loops and overhaul volunteer/donor onboarding across **7 site pages**.
- Redesigned conversion funnels by adding measurable impact data and tiered giving options; achieved verified task completion across all **4 core user flows** improving perceived trust during usability testing.

**State Farm** | *User Experience Design Intern* | Bellevue, WA **Jun 2025 - Sep 2025**

- Mapped end-to-end billing and payment journeys; conducted **20+ customer interviews** to identify **5+ friction points** across login, terminology, first-time payment, and confirmation flows.
- Designed annotated UX flows and interface concepts in **Figma** for quick-pay; translated customer research into solutions for login, payment, and confirmation friction.

**TealWaters** | *UX/UI Design Intern* | Seattle, WA **Apr 2024 - Aug 2024**

- Designed and prototyped a geospatial wetland mapping interface in **Figma**; redesigned data-layer navigation and multi-select interactions to simplify **5+ analysis workflows** and reduce task completion time by **20%**.
- Synthesized user interviews and competitive analyses into product requirements; drove **5 usability improvements** and stakeholder approval for **7+ features**.

**Stuniverse** | *UI/UX Design Intern* | Seattle, WA **Sep 2023 - Aug 2024**

- Redesigned navigation and artist workflows through iterative user testing; reduced drop-off and contributed to 100+ additional active users.
- Designed and prototyped a studio management feature in Figma, streamlined content organization and management workflows for artists.

## LEADERSHIP EXPERIENCE

**HuskyADAPT** | *Team Leader* | Seattle, WA **Jan 2025 - May 2026**

- Prototyped accessible toys and devices using adaptive switches for children with disabilities.
- Applied human-centered design principles to improve inclusive play experiences.

**Engineers Without Borders USA** | *Team Leader* | Seattle, WA **Mar 2023 - Sep 2023**

- Spearheaded 3+ sustainable engineering projects for under-resourced communities.
- Coordinated project planning to support international initiatives serving 500+ people.

## RELEVANT COURSEWORK

**Design & Product:** User Research, Visual Communication, Human-Centered Design, Interaction Design, Usability Testing, Product Management, Project Management

**Technical & Quantitative:** Object-Oriented Programming, Data Structures and Algorithms, Statistics, Calculus, Physics

## TECHNICAL SKILLS

**Product & Program:** Product Requirements, Feature Prioritization, Product Strategy, Project Planning, Stakeholder Management, Cross-functional Collaboration, User Research, User Testing, Journey Mapping

**Design & Tools:** Figma, Framer, Miro, Wireframing, Prototyping

**Technical:** Java, JavaScript, TypeScript, Python, React, HTML/CSS, Git, Microsoft Office, Google Workspace
